## PRESS RELEASE

### Wisbech Air Cadets Reach For The Sky

On Sunday 28<sup>th</sup> March 2009, 4 cadets from Wisbech Air Training Corps (ATC) attended Royal Air Force Wyton for a chance to experience the thrill of Air Experience Flying.

Cadets Ryan Timbrell, Sian Huggins, Luke Jerney and LeeKane Brockwell arrived at No 5 Air Experience Flying (AEF) at RAF Wyton for an afternoon of learning how to handle aircraft, aerobatics and being able to see the surrounding area from the sky at a height of between 3000 and 5000 feet.

The purpose of the experience is to give cadets the chance to actually fly light aircraft under controlled conditions. All the cadets managed approximately half an hour in the air. For 2 of the cadets it was their first chance to fly.

Cadet Luke Jerney said, “ It was fantastic definitely the best half hour of my life”

If you would like to enjoy the thrill of flying and other activities then come along and join us on a Monday or Thursday evening at our Sandlyland Headquarters from 7pm onwards.
